**Subject:** Questar Gas

I am strongly opposed to Questar Gas's request to have other than the rate payers of Beaver and other southern counties of Utah pay for the pipeline there. If you allow Questar to saddle the rest of us with this request then socialism is well and thriving in Utah. Why should we pay for something that we will receive no benefit?

If Beaver and the other cities made a contract with Questar they should have investigated all the options before signing the contract. Do not allow Questar to add another expense to our gas bill, we pay enough already.

And how many millions did Questar make last year?
