To Whom It May Concern:

The Hinckley Town Mayor and Council urges the Public Service Commission to act positively on the recent recommendation of a task force to remove to GSS and EAC rates from Questar Gas Company's tariff. Millard County is in desperate need of this additional economic base.

It is our understanding that Beaver County has lost recent opportunities for growth because gas rates were too high in comparison to other counties. We face the same challenges and new industry would breath new life into our county providing the tax base necessary to continue to grow and develop.

It is our understanding that this action would significantly lower our rates while raising the rates of the entire Questar base rate by less than twenty (20) cents per month. This is a small price to pay for allowing our rural communities to achieve some of the same prosperity of the Wasatch front. Again, we urge you to accept the recommendation of the task force and eliminate GSS and EAC rates from our natural gas tariff.

Sincerely,

Mayor Donald Brown
& Hinckley Town Council
