To Whom It May Concern:

Please do not change the rebate program as it is. It's a great opportunity for home owners. Most home owners wouldn't even think about insulating their homes, it's great that they have offered this. Not only does it help the home owners, it helps the contractors who are installing the insulation. A lot of them are low on work due to the housing market and they have found this opportunity to be able to keep on working. We are saving on our heating bills and keeping people employed. Not all of us qualify for the entire rebate, for example: Rocky Mountain Power doesn't service Utah county or Murray City. In my opinion it truly benefits us all.

Sincerely,
